Life in the Rain Forest

The rain forest is filled with all kinds of wonderful life. Can you find and name the animals?
Color them in.

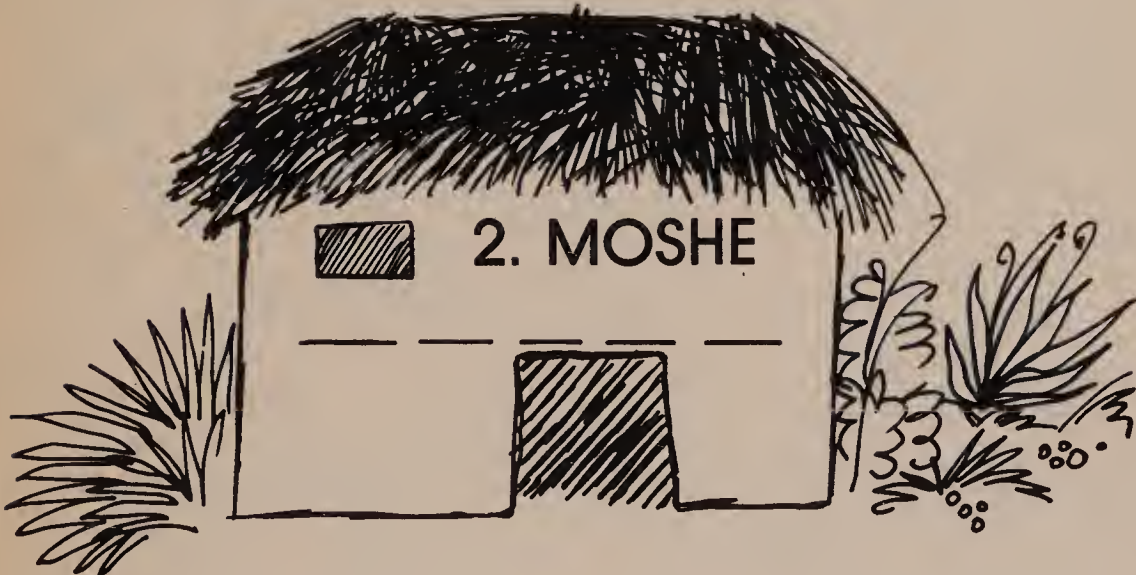

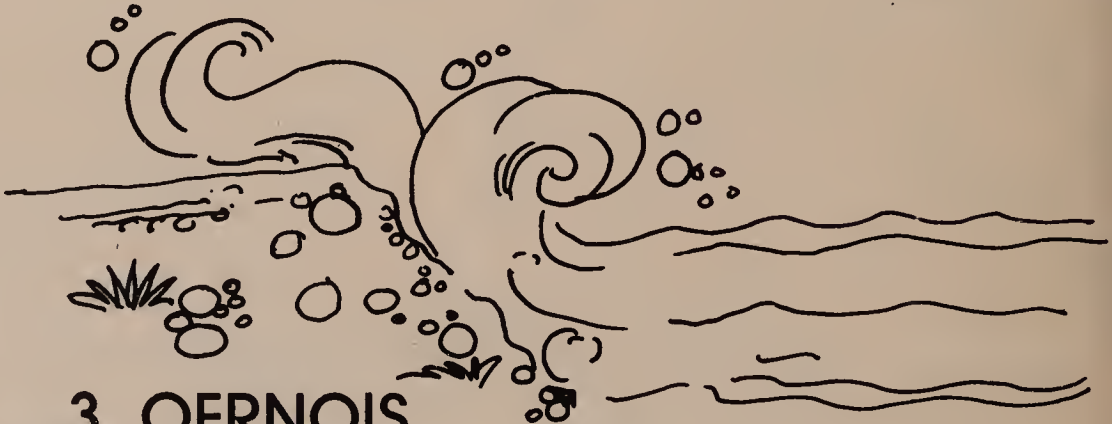

What does the rain forest prevent? Why do we need rain forests?
Unscramble the words to find out. Then color the page.

1. OBGLAL
AMRWNIG

2. MOSHE

3. OERNOIS

4. EMIDECIN

5. DOOF

Our rain forests are disappearing. Here are some reasons why.
Unscramble the words and color the pictures.

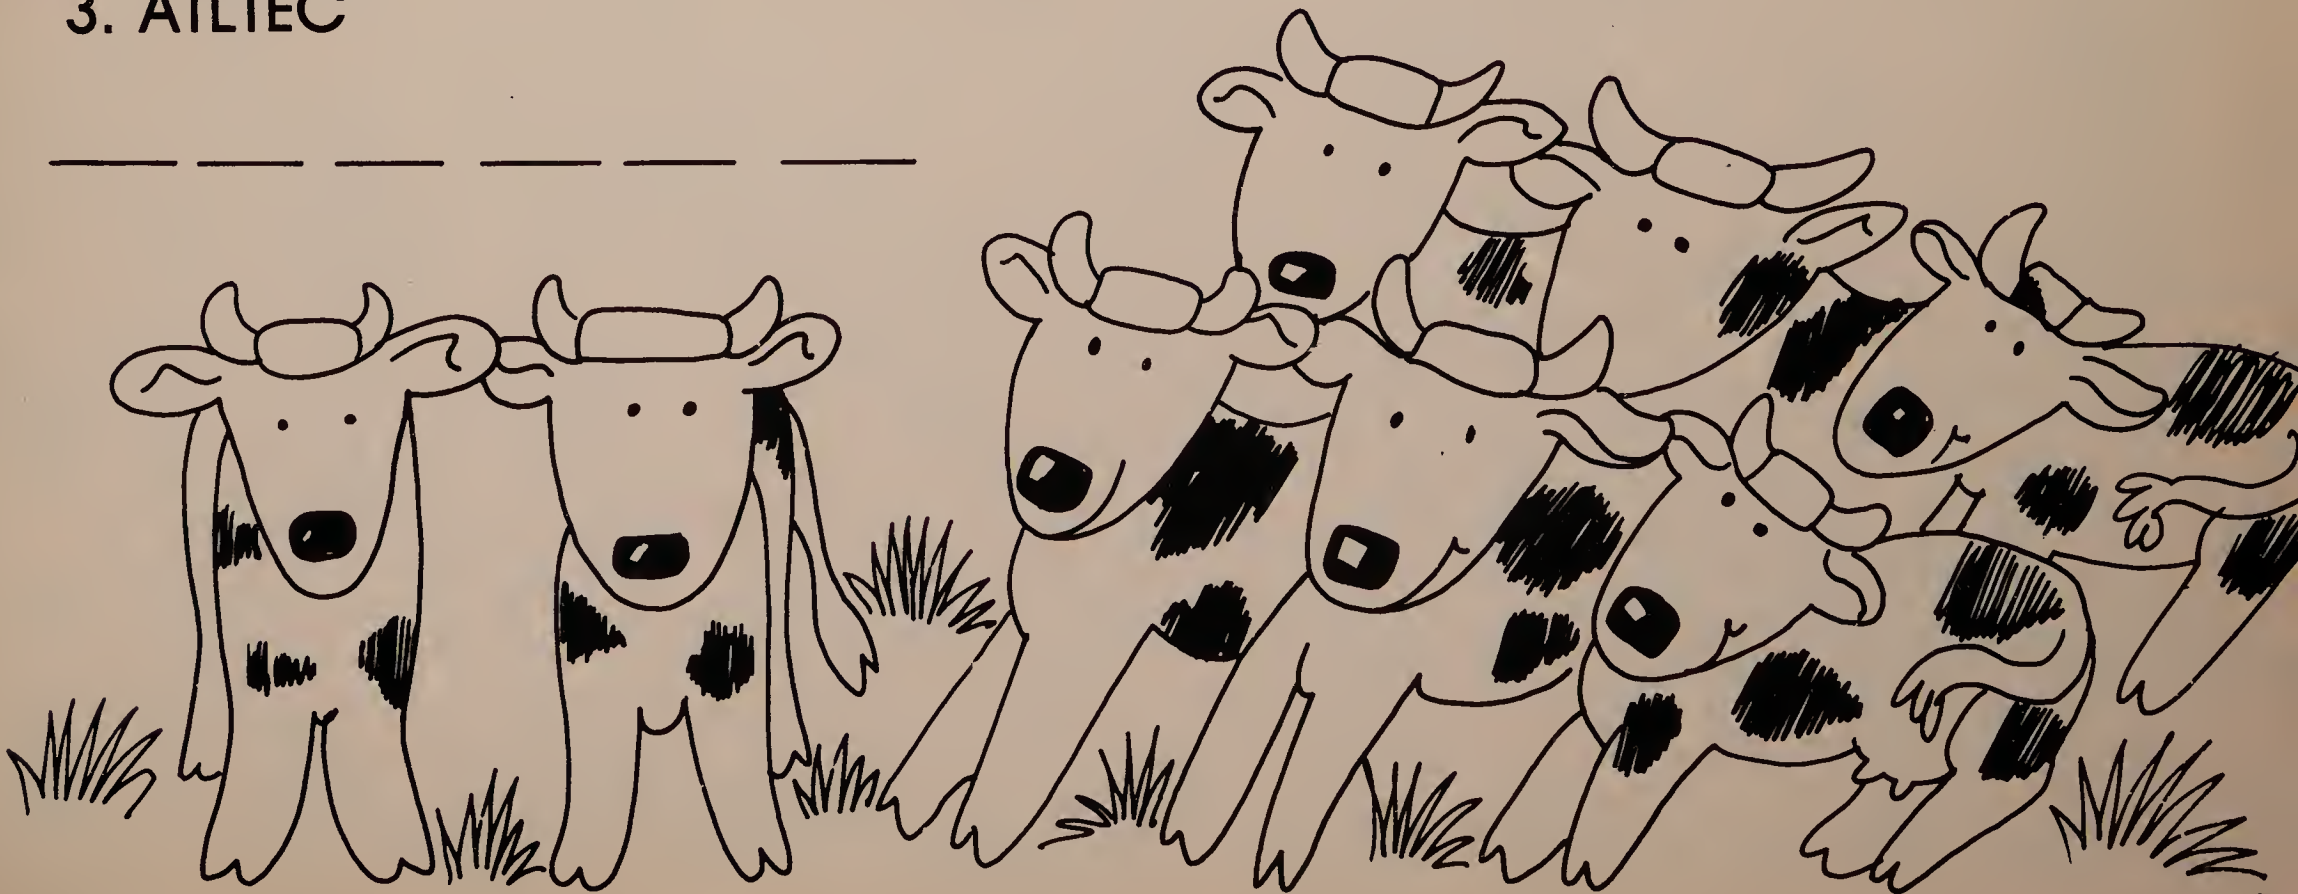

1. OLGINGG

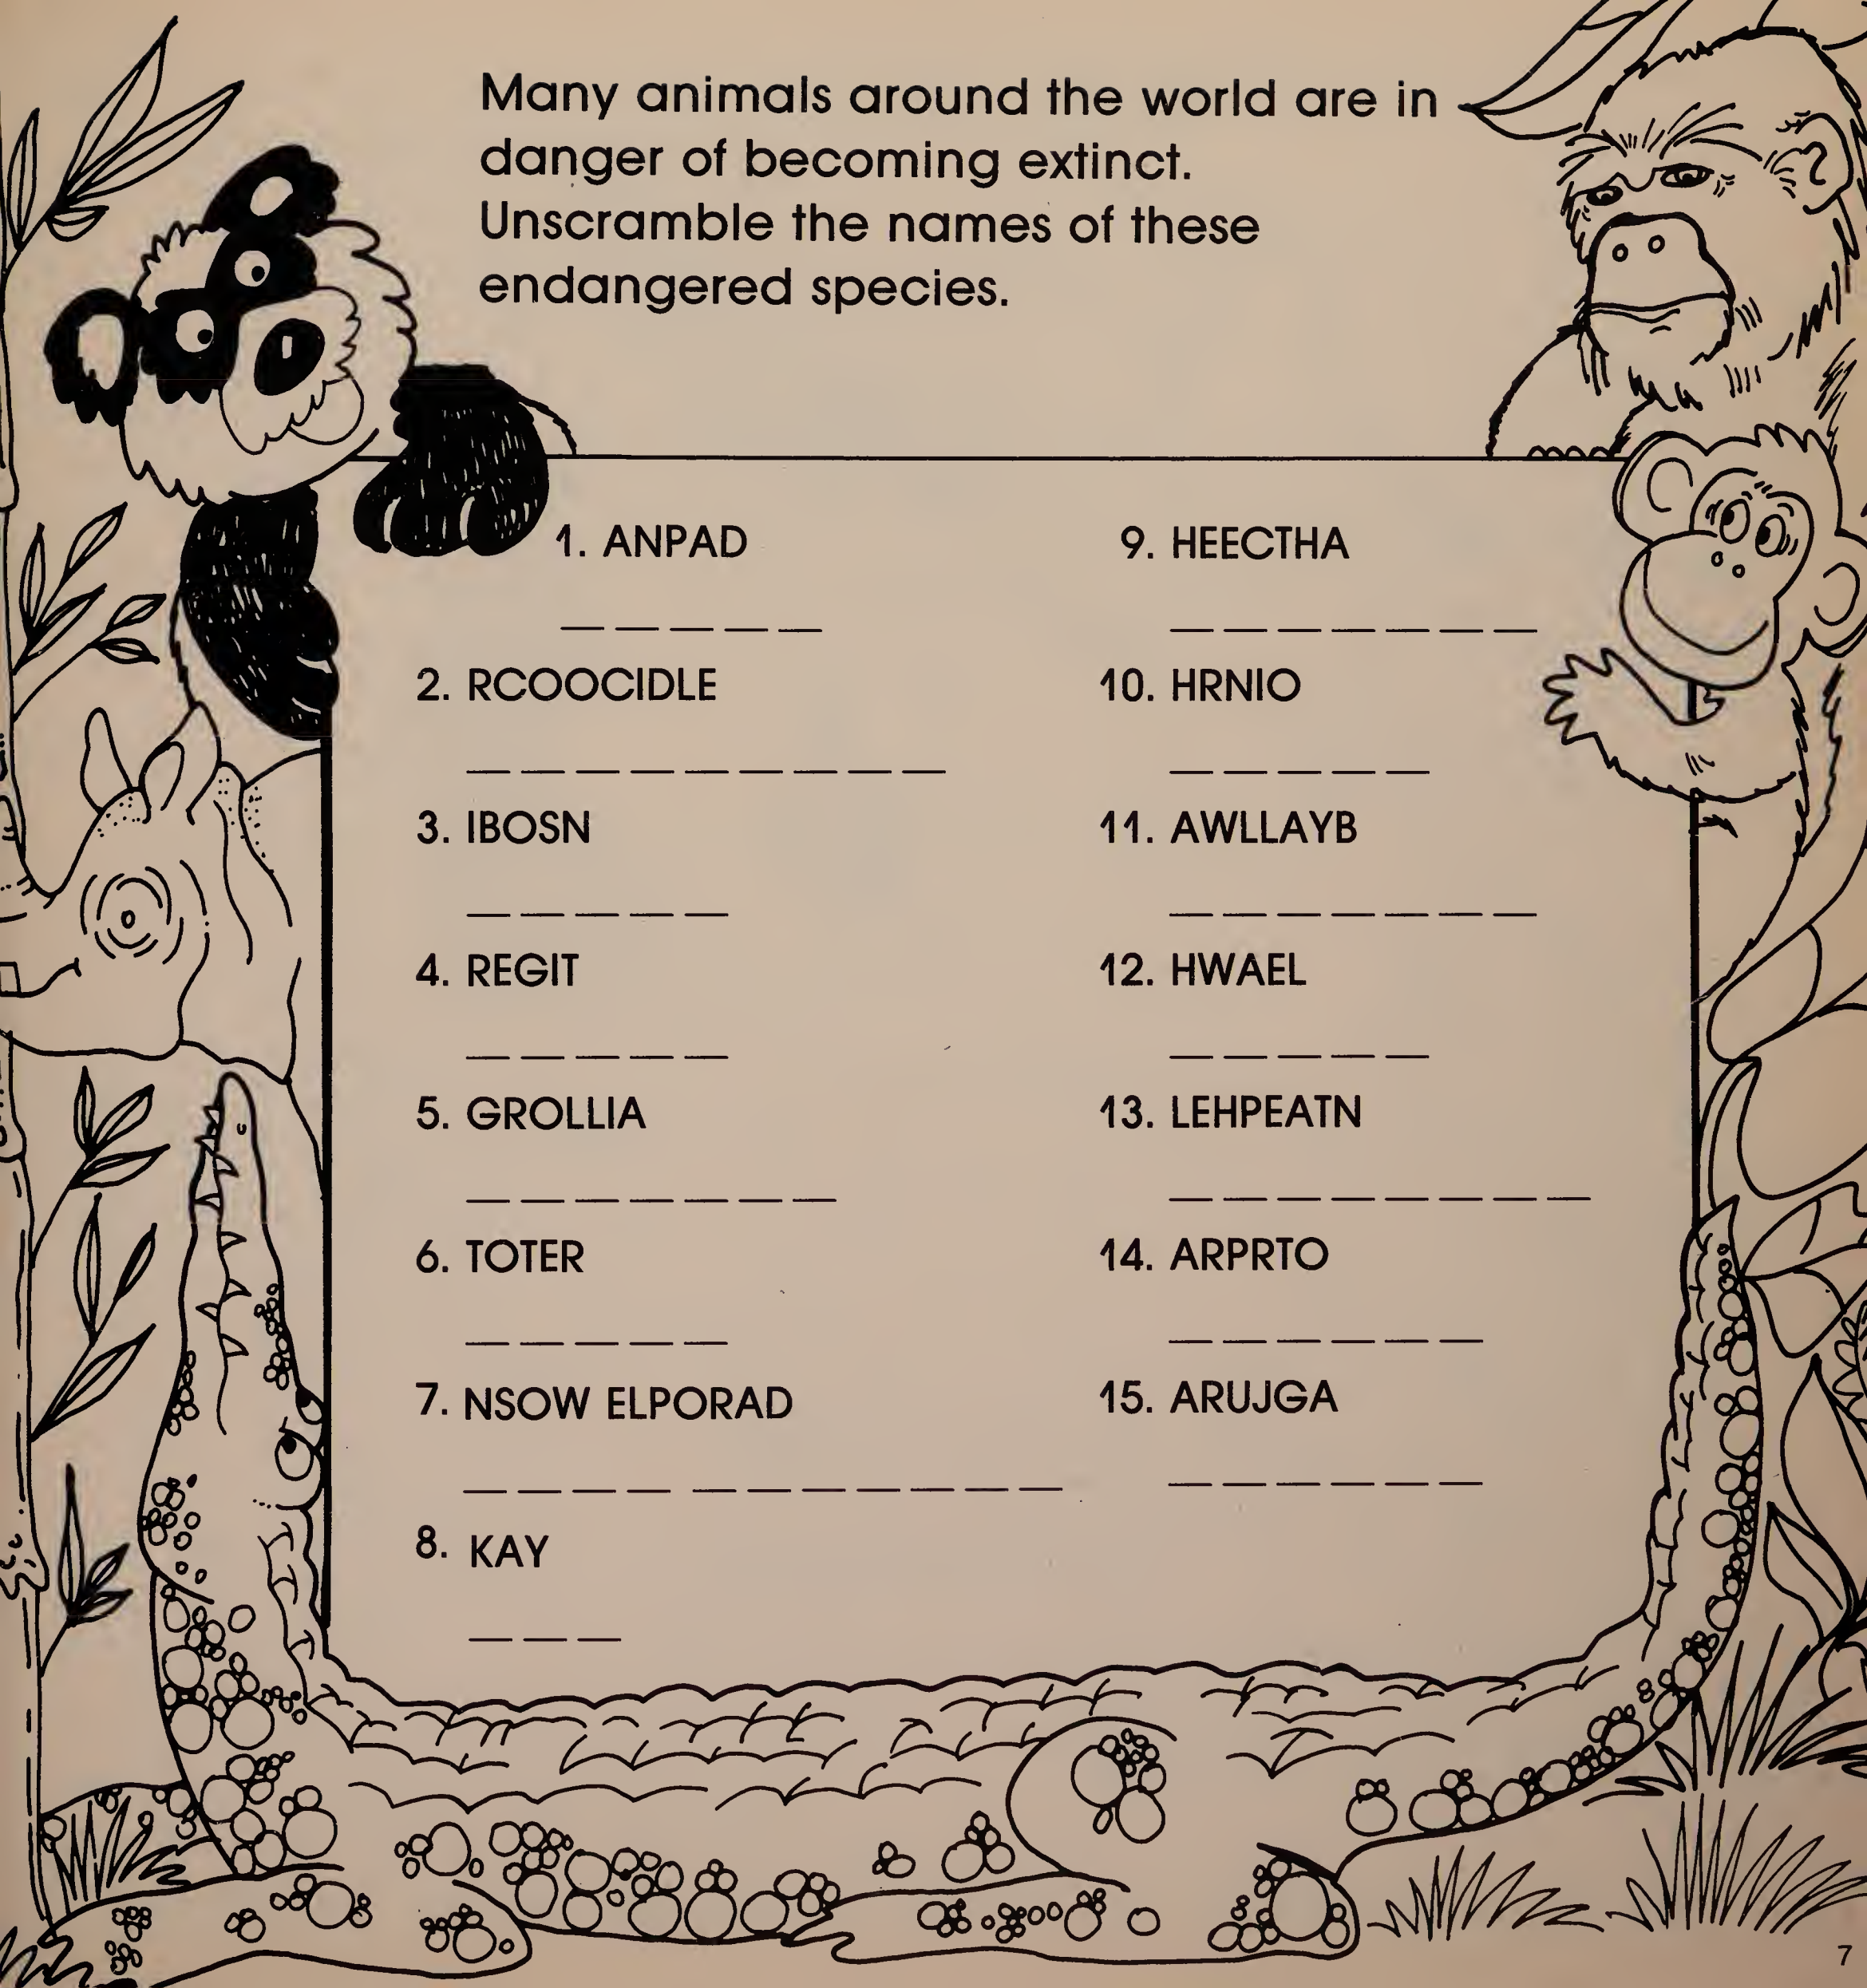

2. ARMFGNI

3. ATLTEC

Find the food found in the rain forest and color it in.

Many animals around the world are in danger of becoming extinct. Unscramble the names of these endangered species.

1. ANPAD

2. RCOOCIDLE

3. IBOSN

4. REGIT

5. GROLLIA

6. TOTER

7. NSOW ELPORAD

8. KAY

9. HEECTHA

13. LEHPEATN

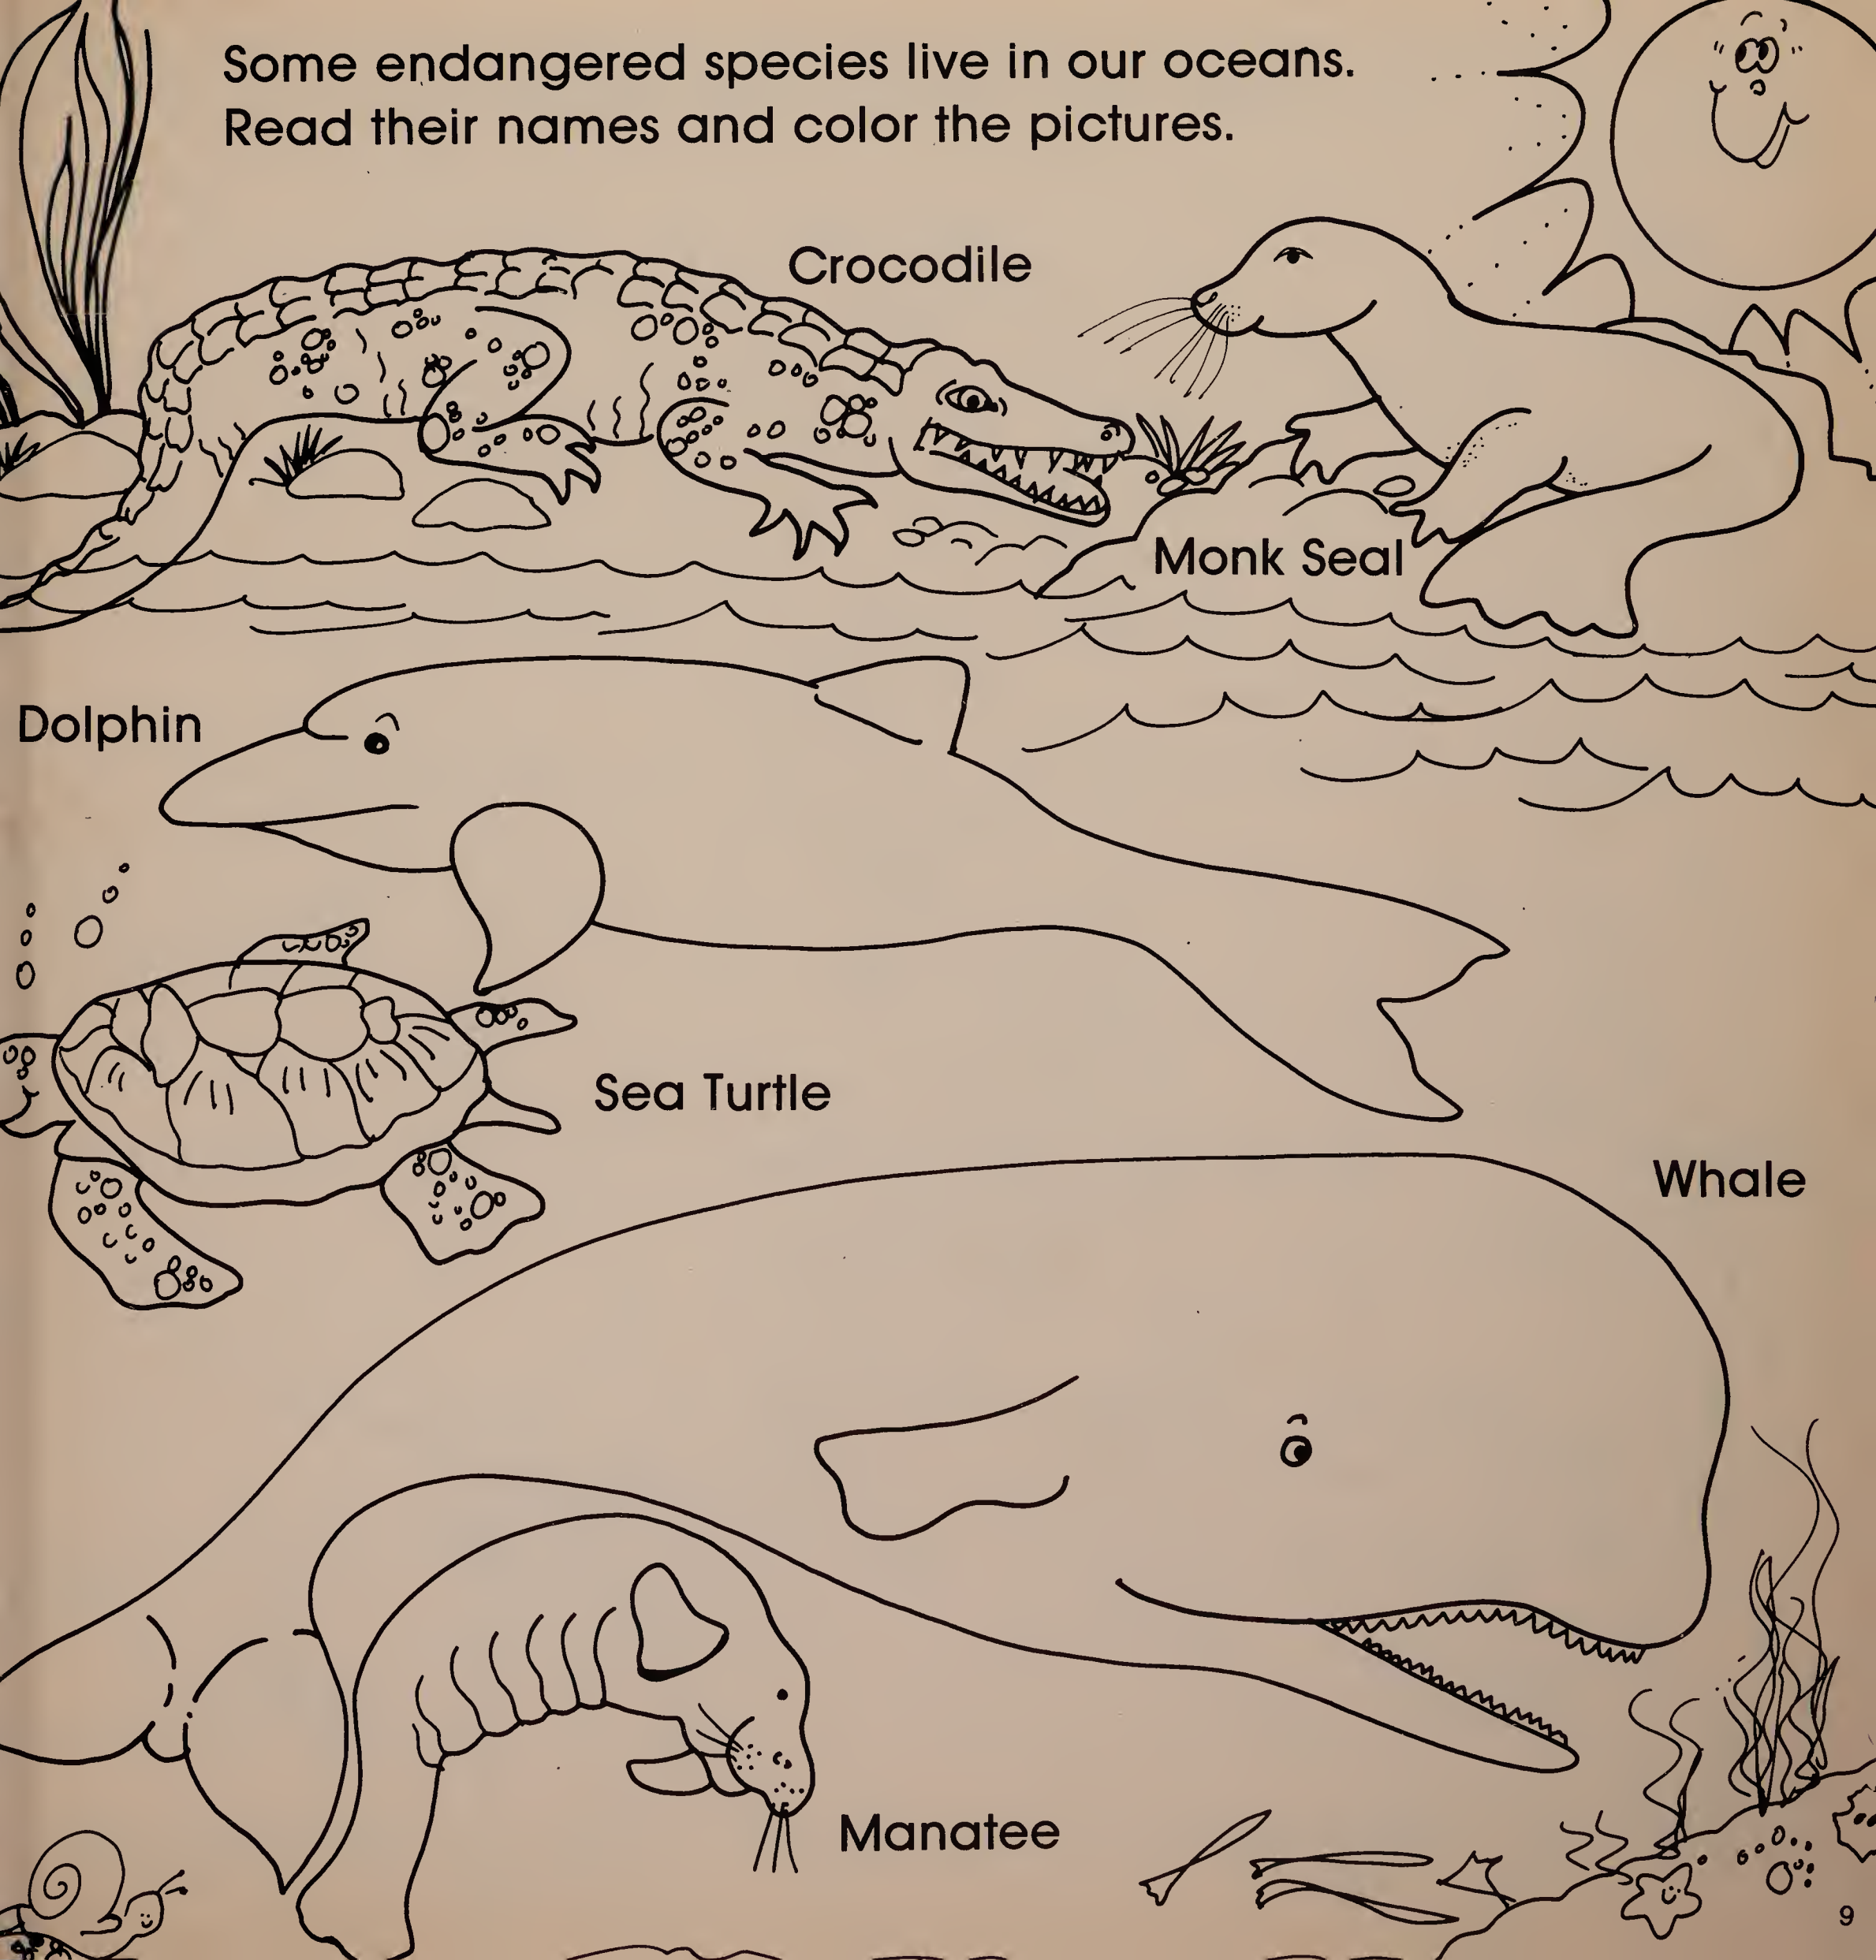

14. ARPRTIO

15. ARUJGA

Find and color the endangered animals.

Some endangered species live in our oceans.
Read their names and color the pictures.

Crocodile

Monk Seal

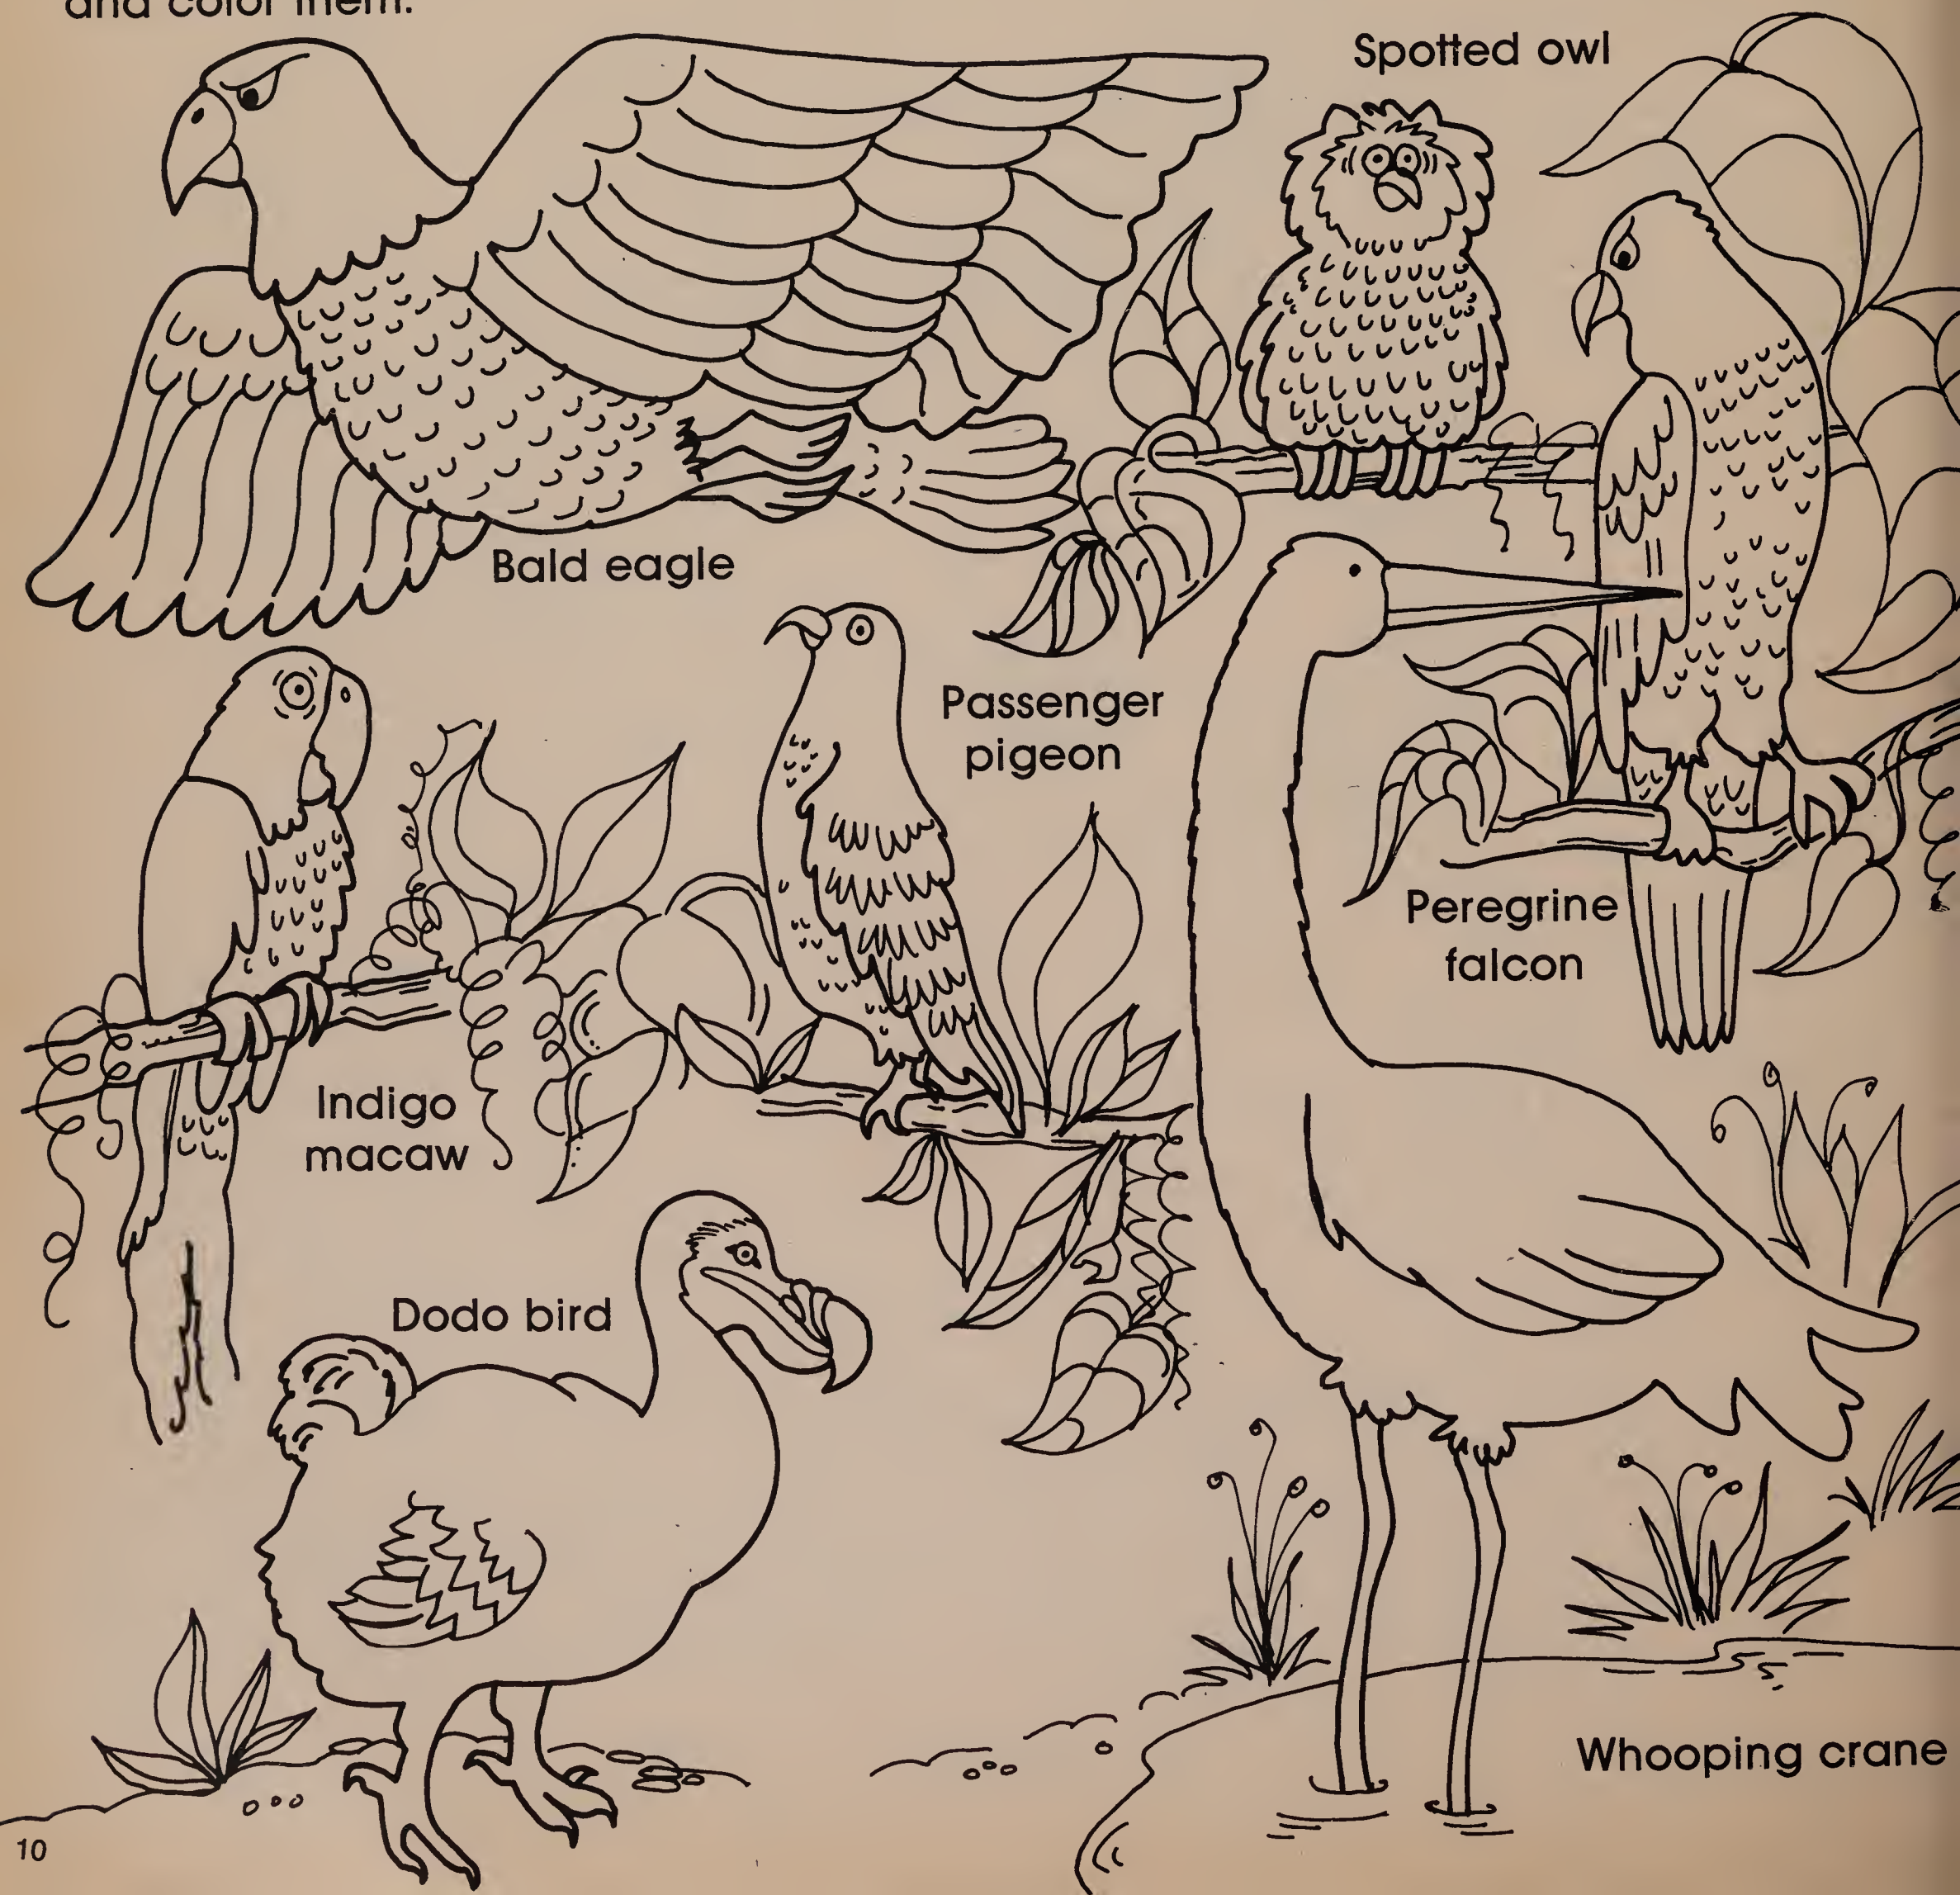

Dolphin

Sea Turtle

Whale

Manatee

Two of the birds here are extinct—the dodo and the passenger pigeon. Many people are working to make sure that doesn't happen to the other birds pictured here. Find and color them.

Spotted owl

Bald eagle

Passenger pigeon

Peregrine falcon

Indigo macaw

Dodo bird

Whooping crane

What Is the Ozone?

Ozone forms a layer around the

protecting the

from harmful rays from the

. These ultraviolet rays are

dangerous to

and

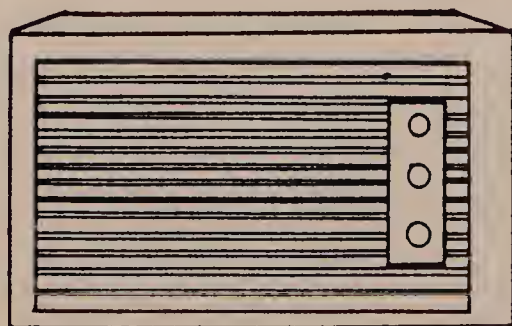

. Things like

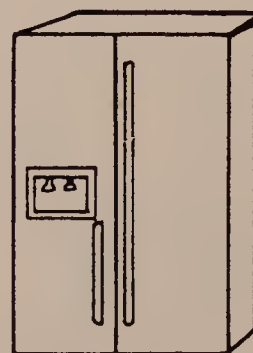

and

coolants from

and

are bad for the

atmosphere because they break down the ozone layer.

Unscramble the words and find the ozone layer. Color the picture.

1. NUS

2. ZNOEO

3. SYK

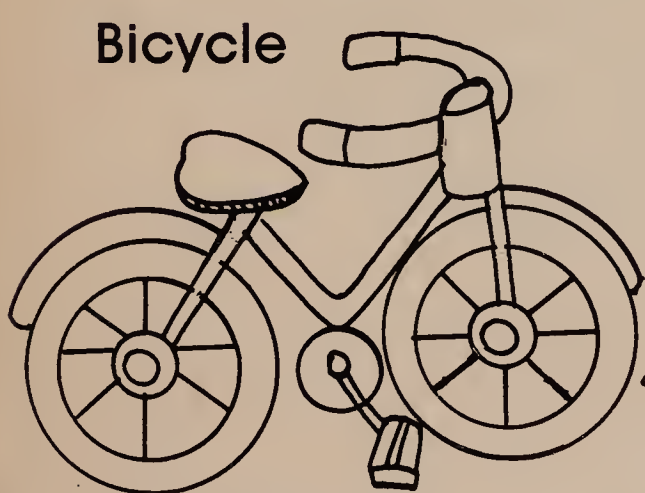

YALRE

4. ARTHE

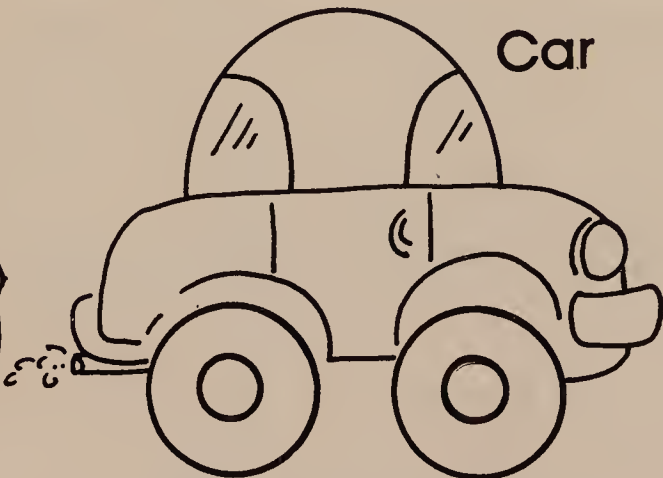

5. COULDS

You can help protect the ozone layer. Color the things in this picture BLUE that you *should* do or use when possible. Color the things RED that can hurt the ozone.

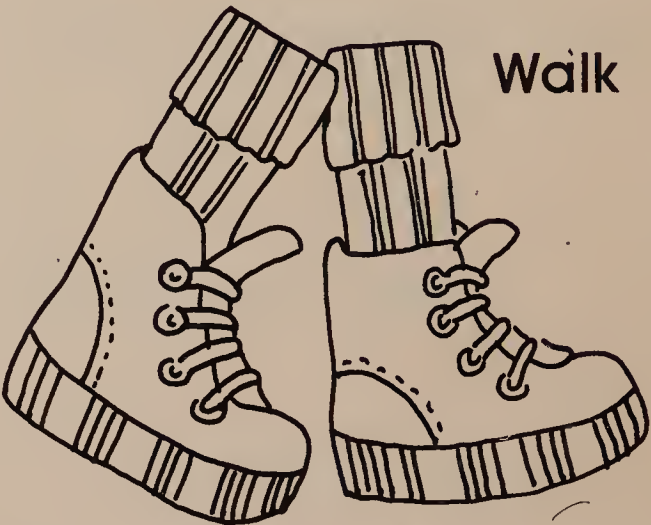

Bicycle

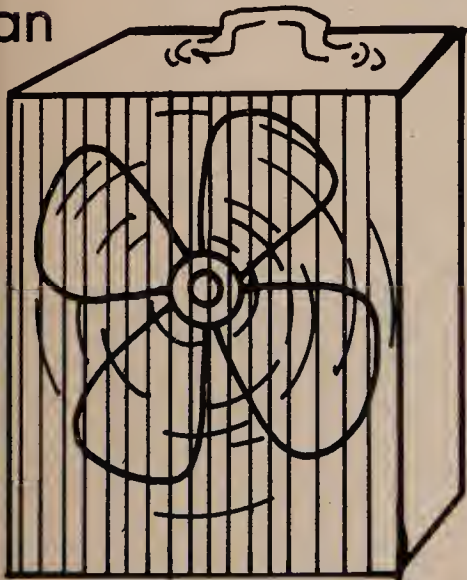

Car

Walk

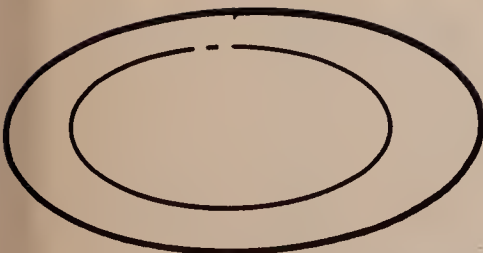

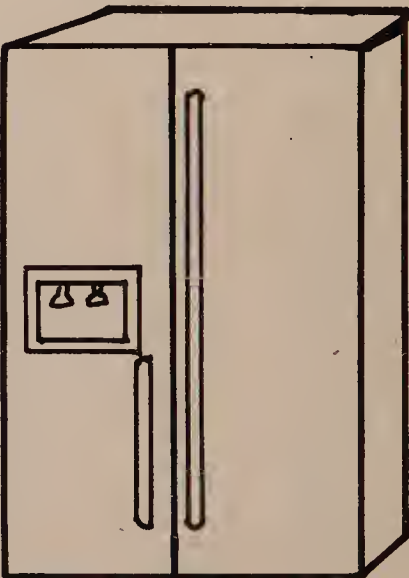

Fan

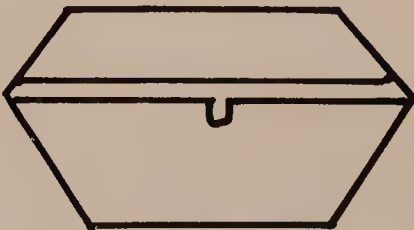

Air conditioner

Refrigerator

Paper goods

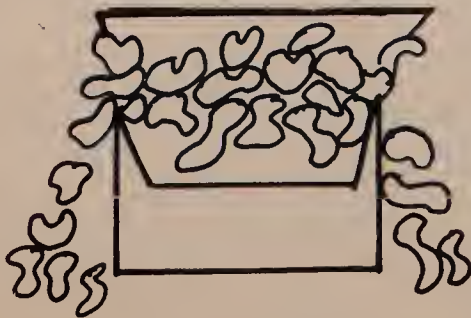

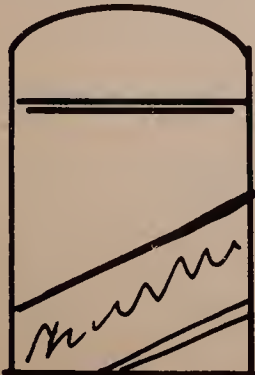

Plastic containers

Aerosol can

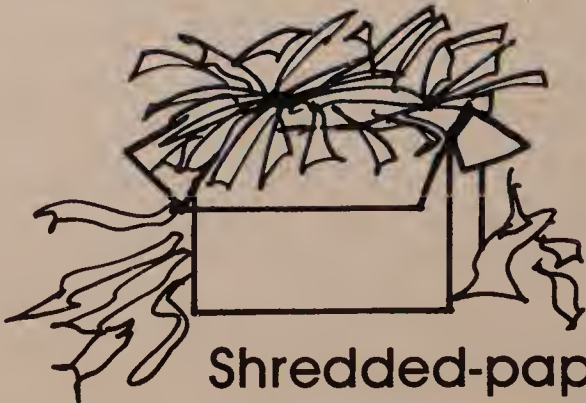

Stick deodorant

Plastic packing

Pump spray

Shredded-paper packing

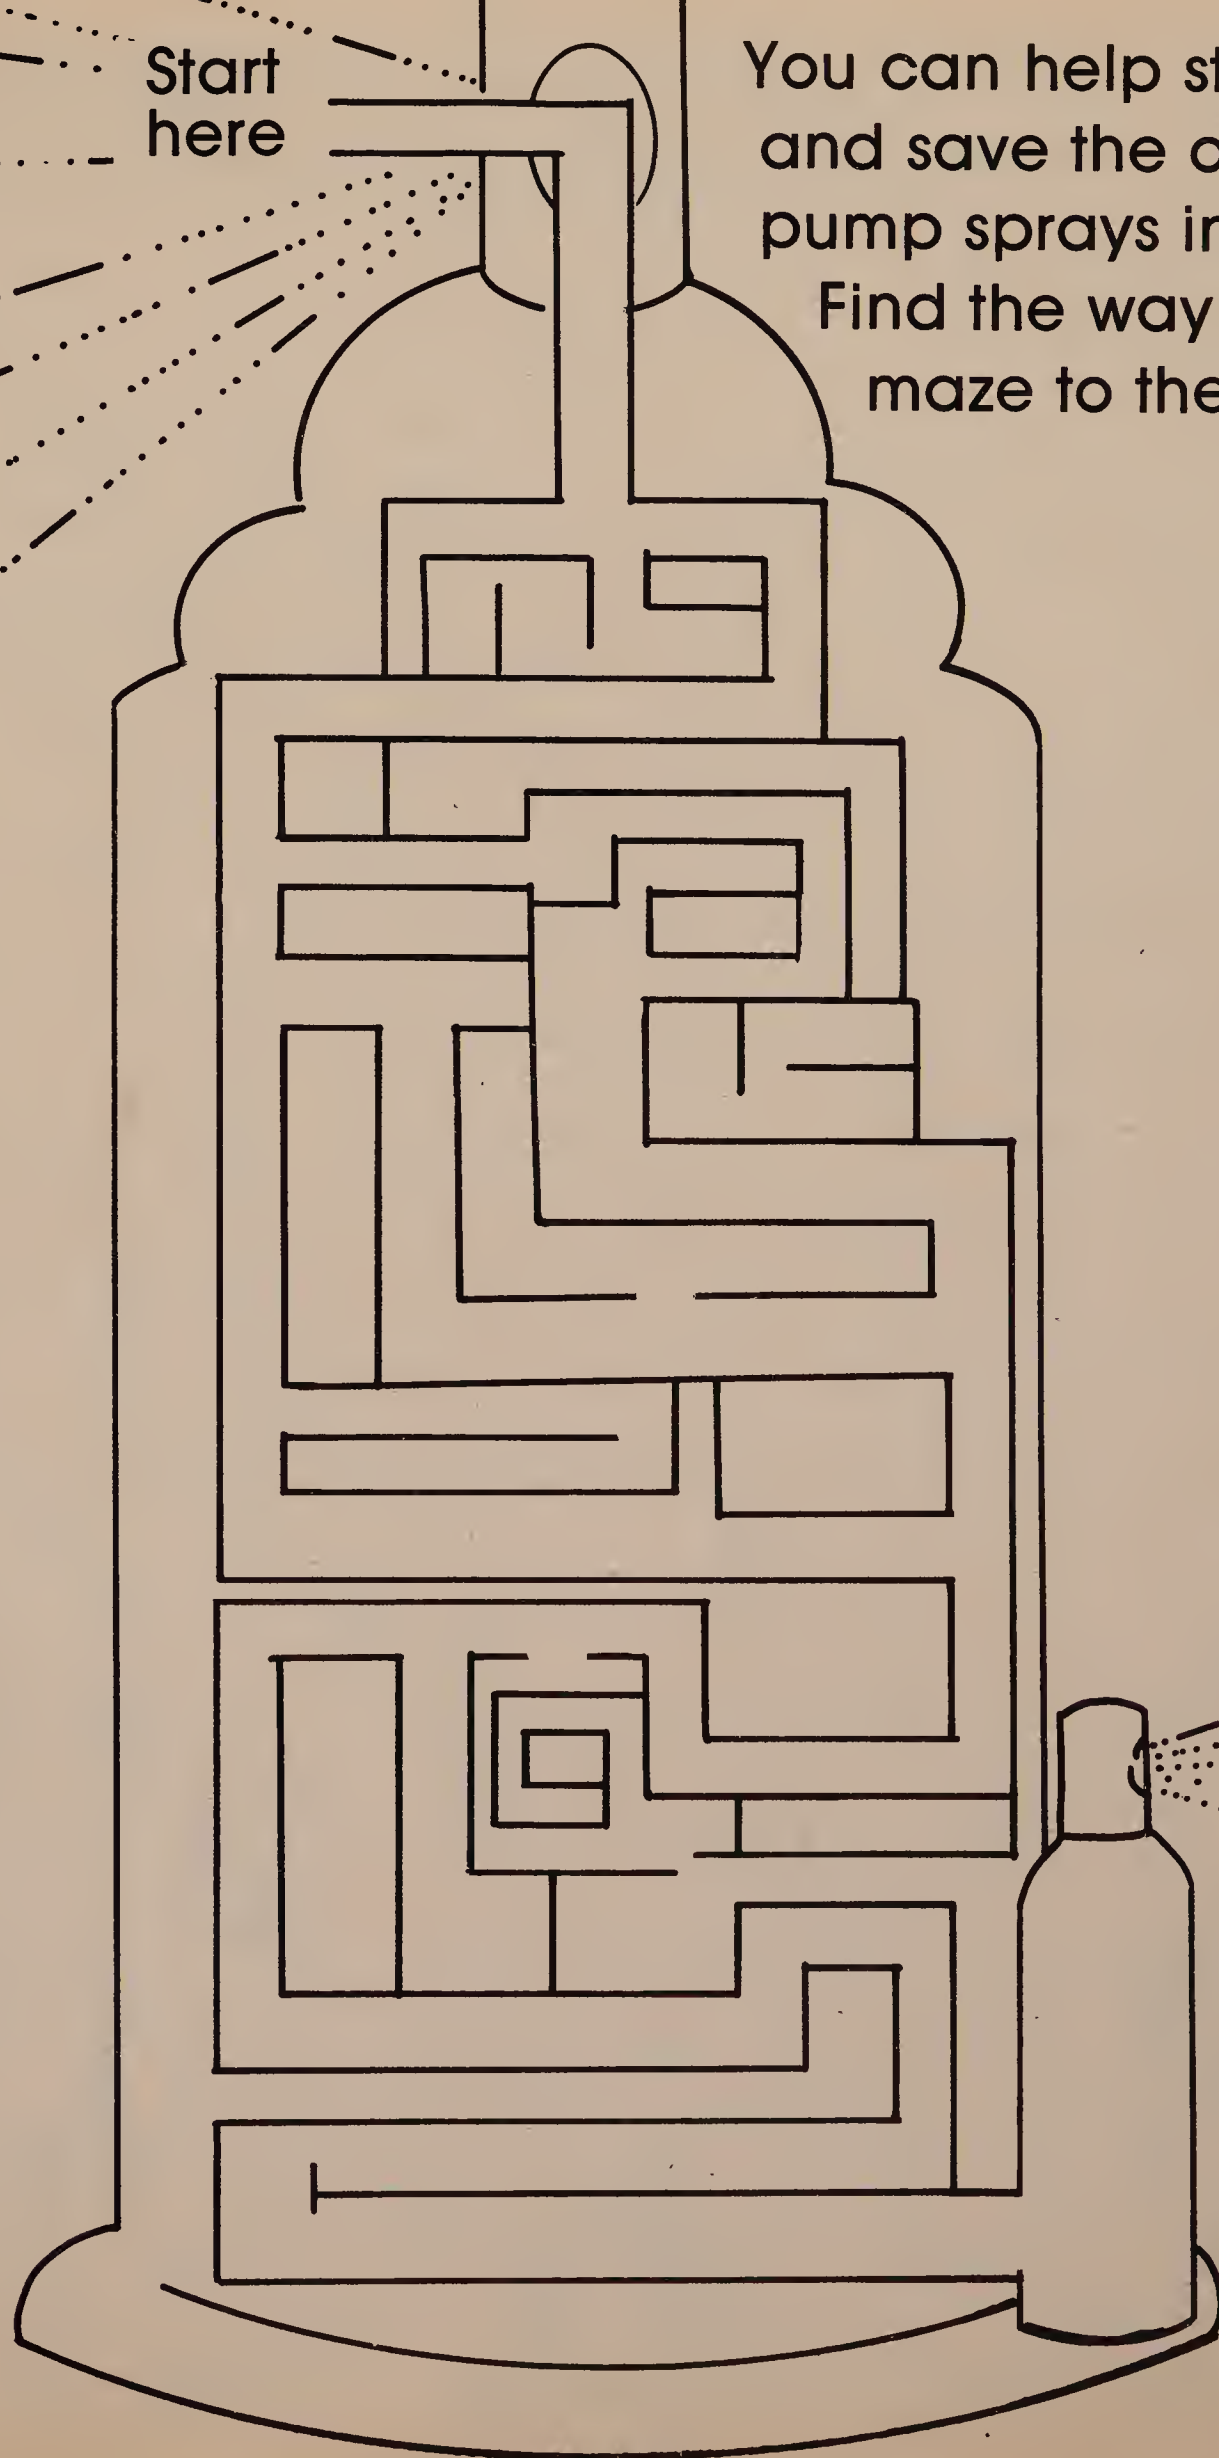

Pollution

Some air pollution is caused by exhaust fumes from cars and trucks. See if you can find the words that cause pollution—read across and down. Find and circle these words: fire, planes, garbage, acid rain, cars, trucks, factories, sprays, smoke, chemicals, methane, smog, noise, carbon dioxide.

A	C	S	P	C	H	E	M	I	C	A	L	S
Z	N	M	G	A	R	B	A	G	E	H	S	A

Start
here

You can help stop air pollution
and save the ozone by using
pump sprays instead of aerosols.
Find the way through the
maze to the pump spray.

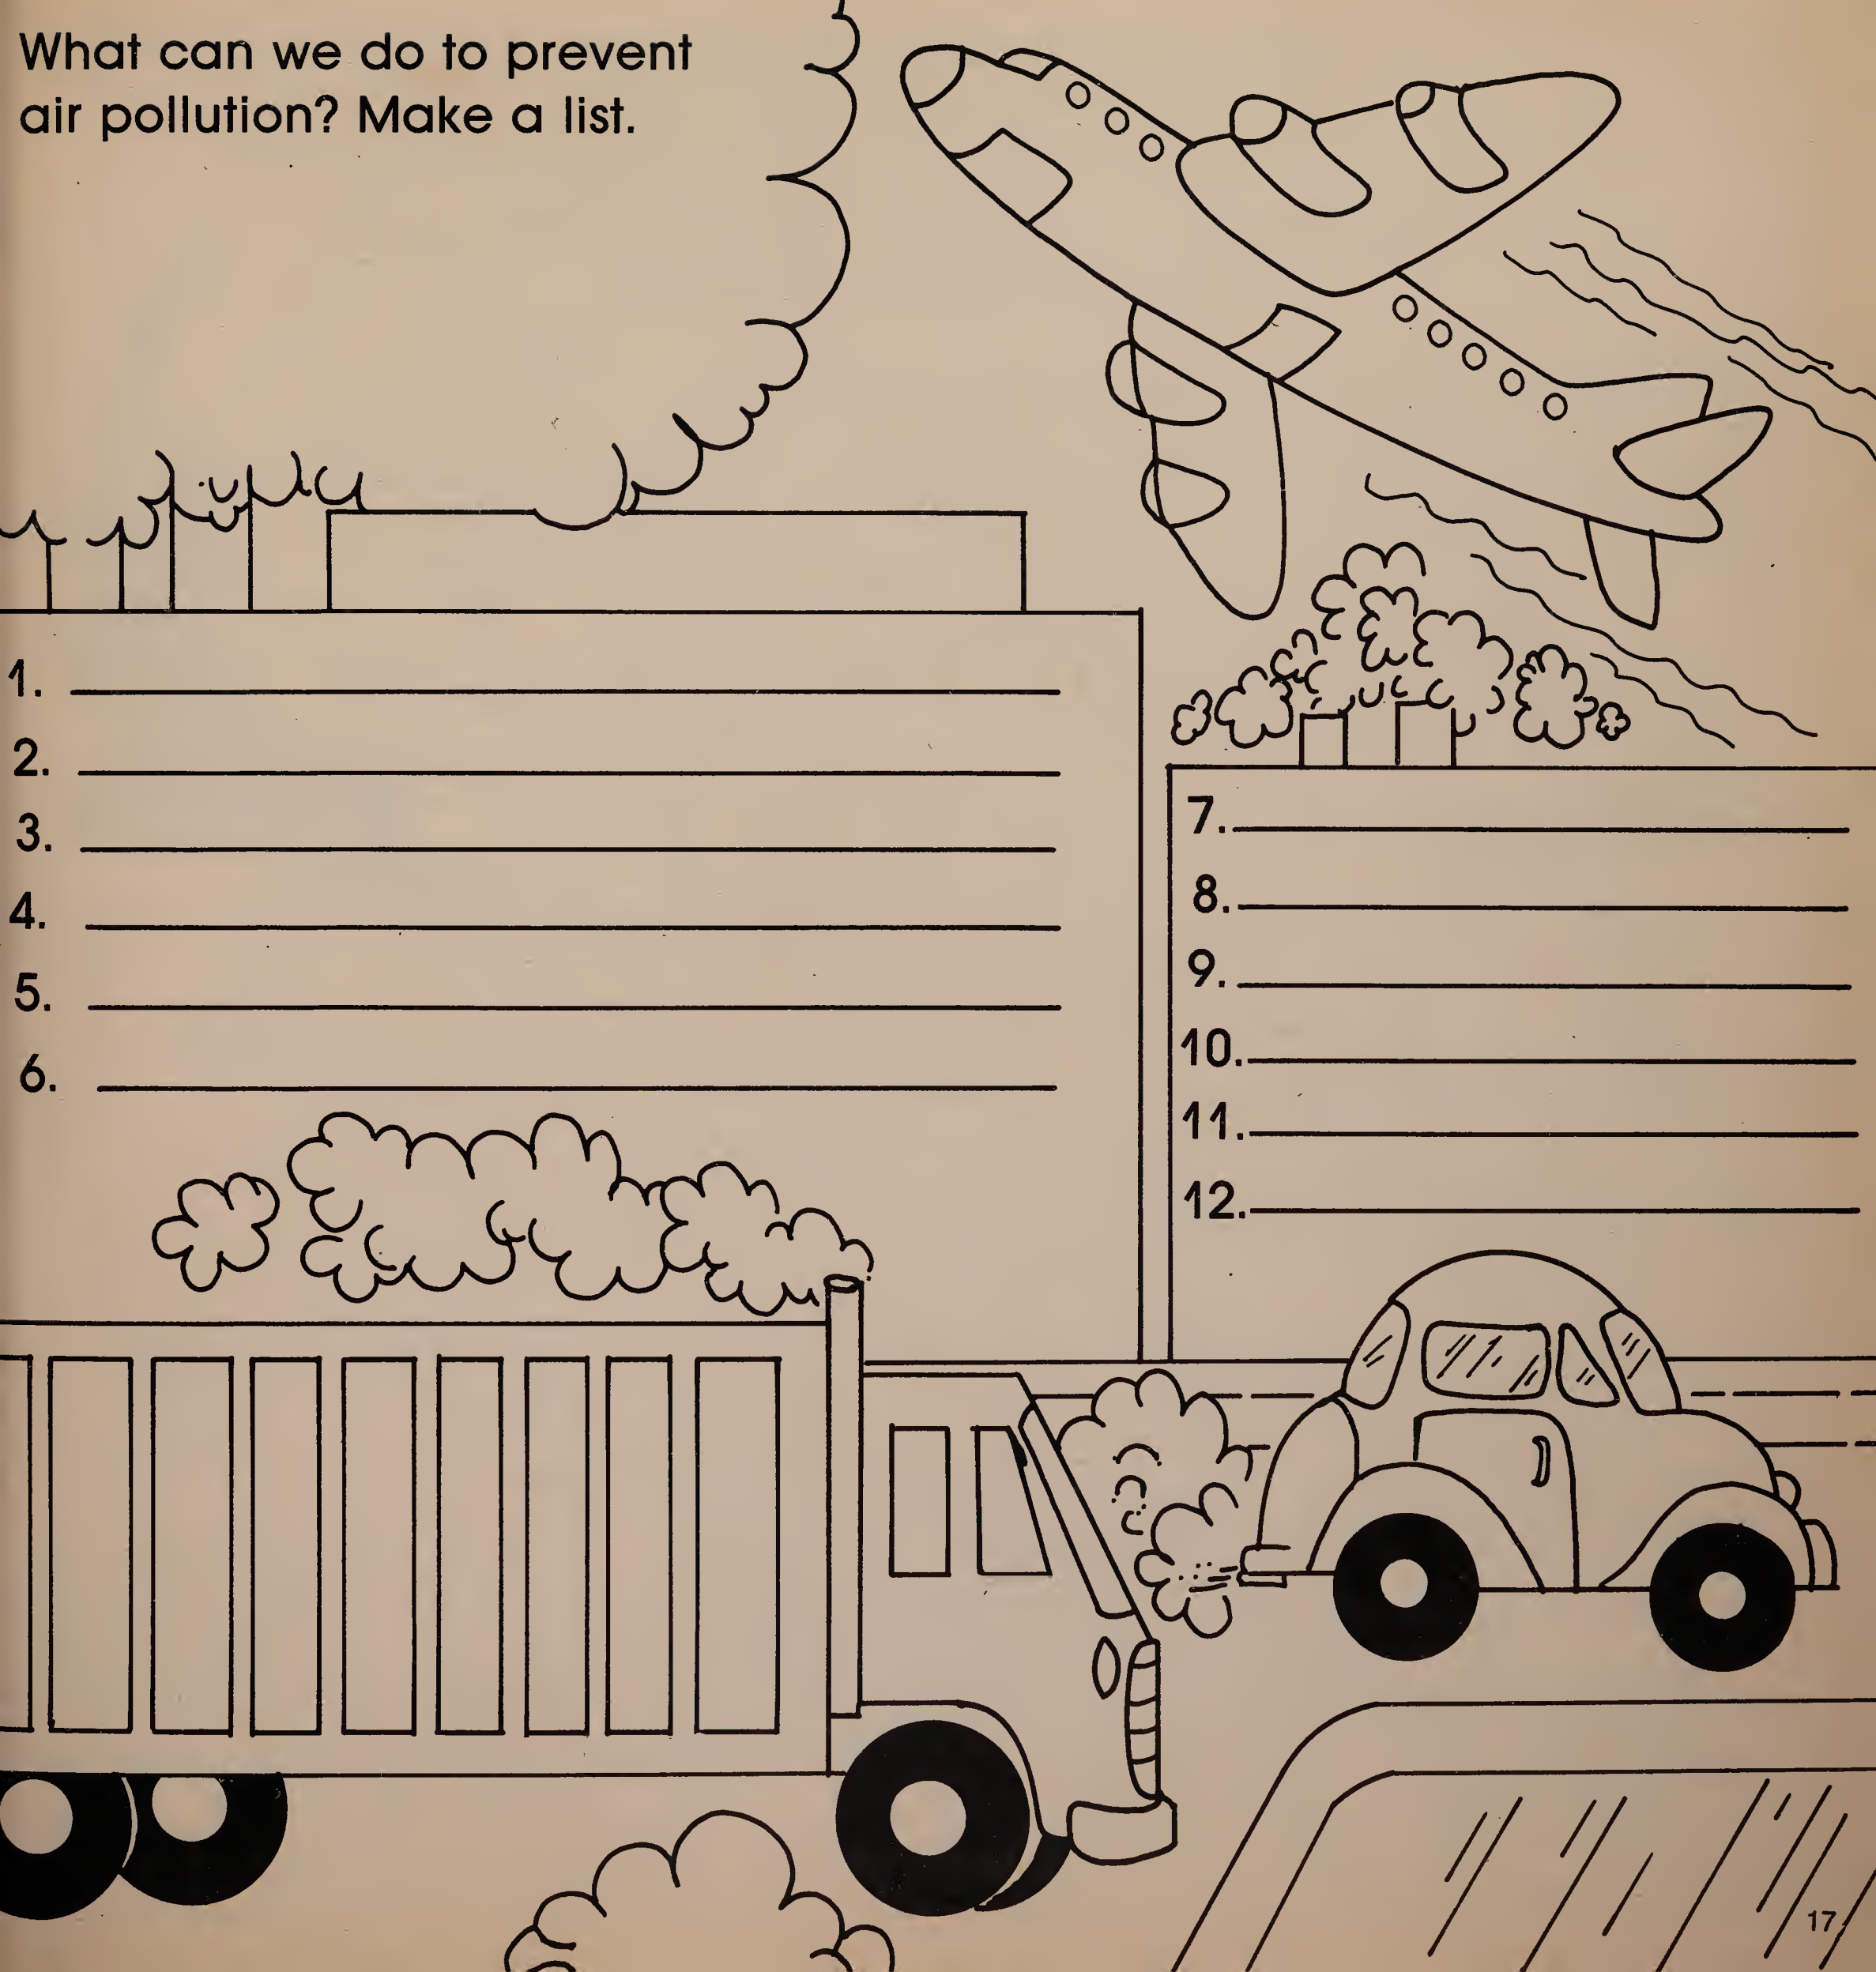

Use
a
pump
spray.

How do you feel about keeping our earth healthy? Write a little poem. Color the page.

What can we do to prevent air pollution? Make a list.

- 1. _____
- 2. _____

Water Pollution

Our clean water is precious. Circle the things in this picture that cause water pollution and color them gray.

Color the rest of the page.

Sea life is harmed by water pollution. We want to keep these living things healthy! Unscramble their names and color the picture.

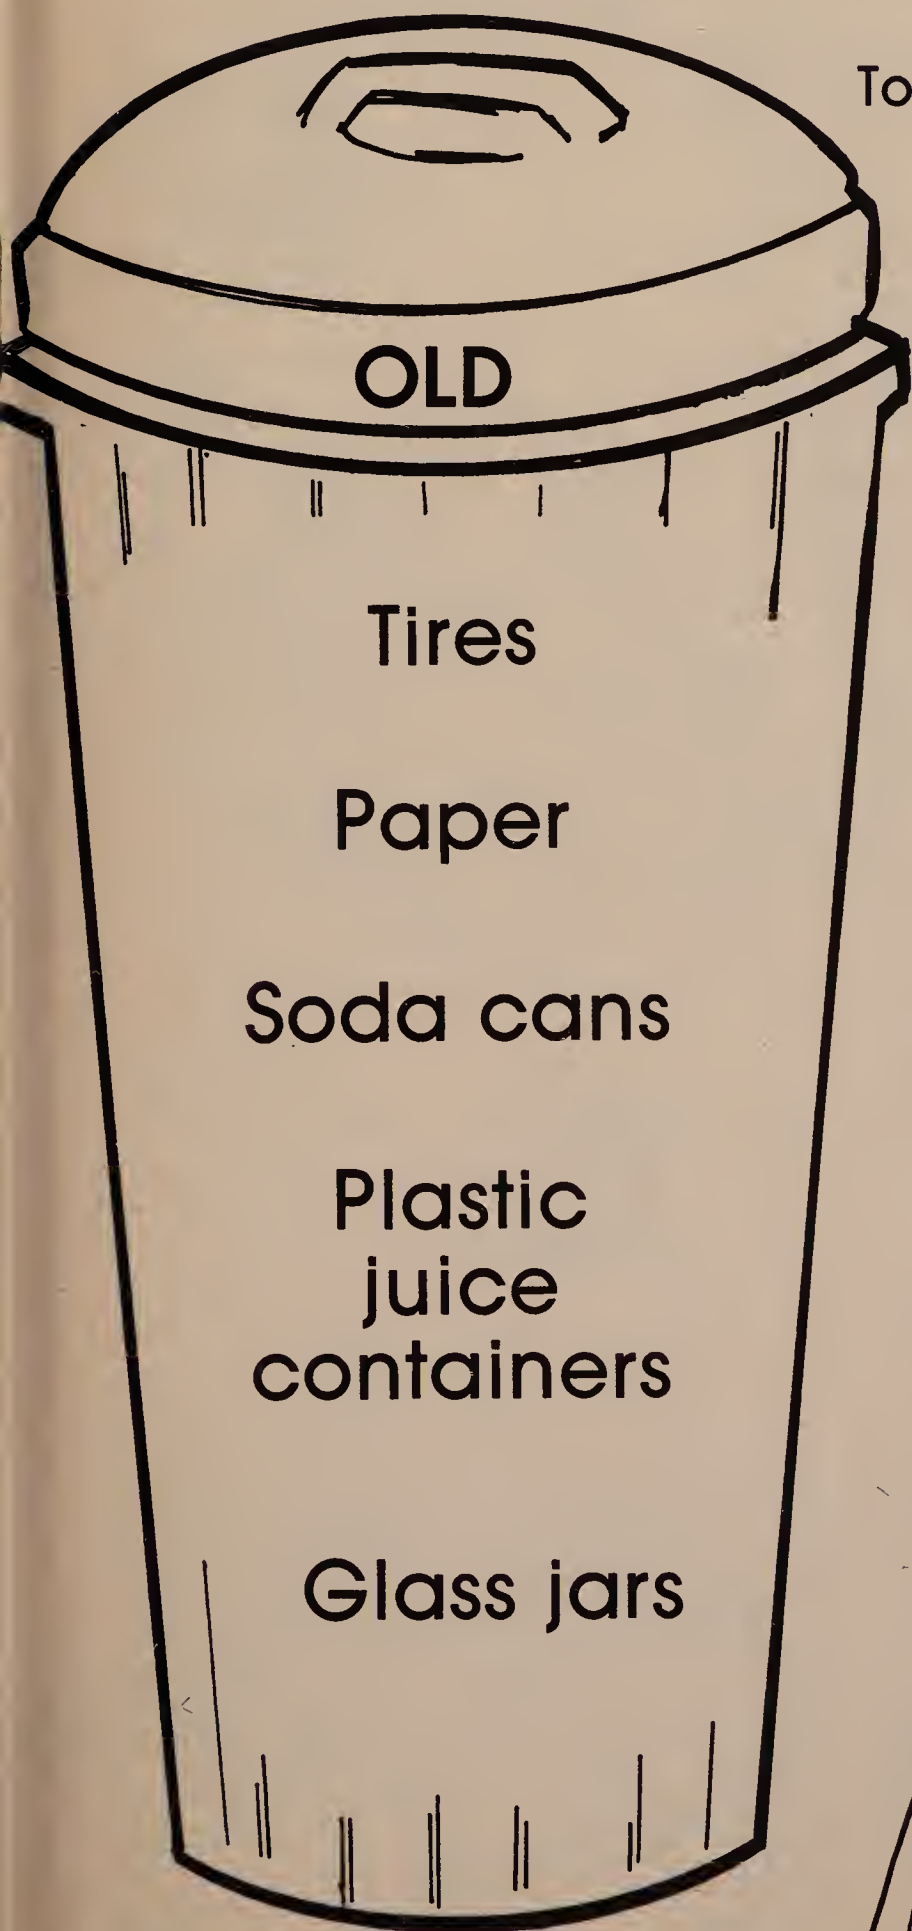

Recycle

Color the recycling bins the colors written on them. Then color the garbage to match the color of the bin it goes in.

New Products from Old

Draw a line connecting the old product with a new one made from the same material.

NEW

Toy truck

Paper towels

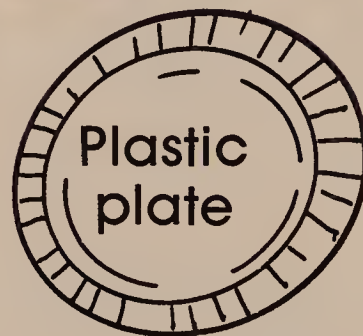

Ball

Toy train

Plastic plate

Greeting card

Rubber doll

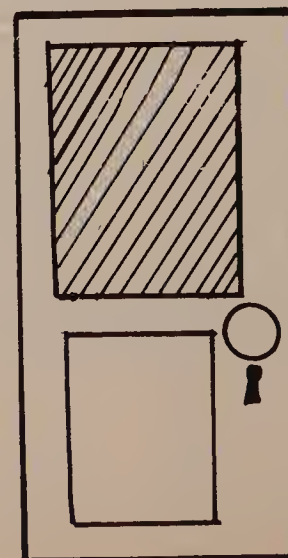

Plastic toy dog

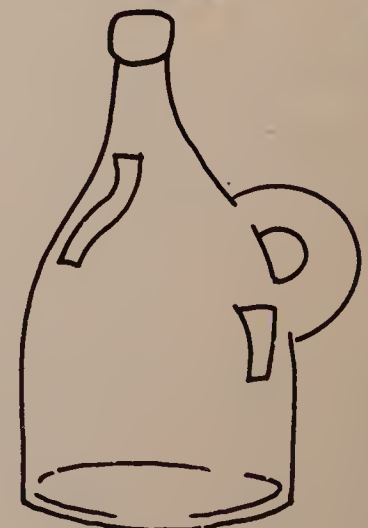

Plastic utensils

Metal door

Bottle

Can

Glass

Paper bag

Make Your Own Compost Heap

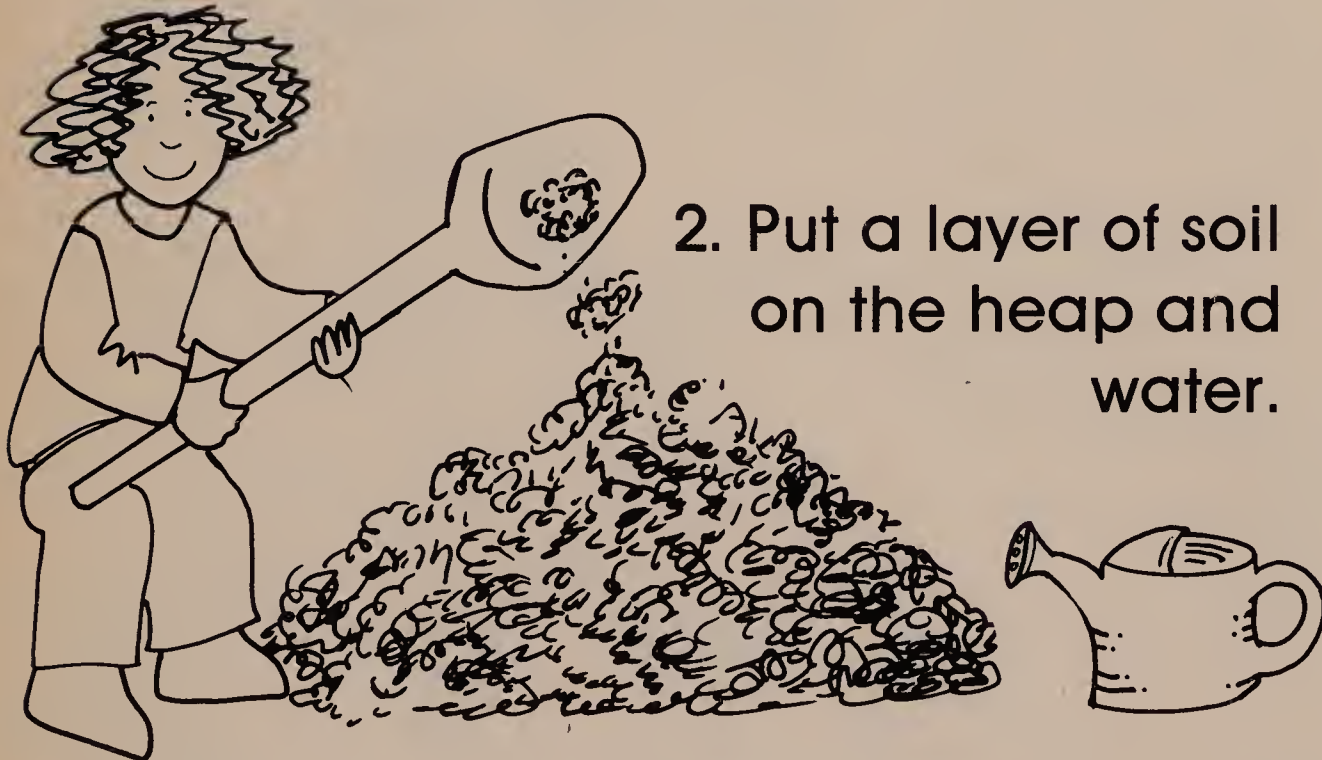

You can recycle leaves, grass clippings, and kitchen scraps, such as fruit and vegetable peels, by creating a compost heap. Under the right conditions, these materials break down into rich soil, which can be used for gardening.

Follow these steps:

1. Collect leaves, grass clippings, and fruit and vegetable scraps and place in a shady spot.

2. Put a layer of soil on the heap and water.

3. Use a shovel to turn the compost every week.
4. Compost will be ready for the garden in 6-12 months.
